PHASES & FACES

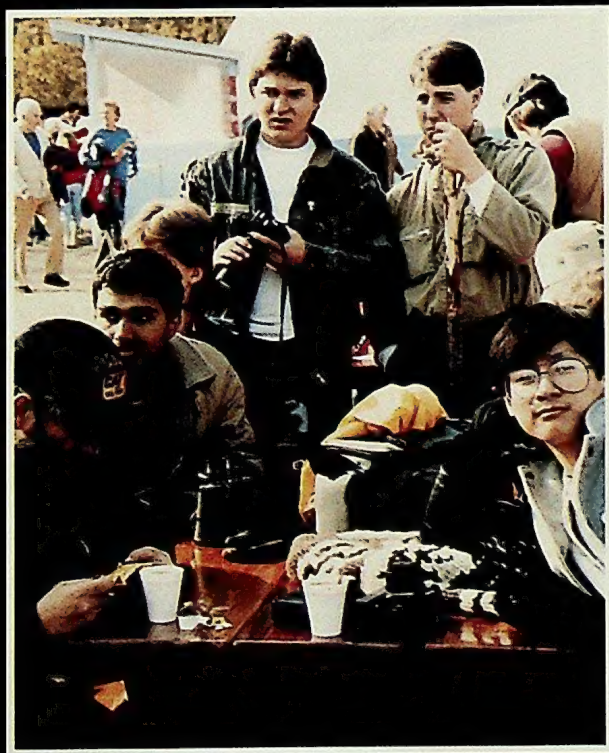

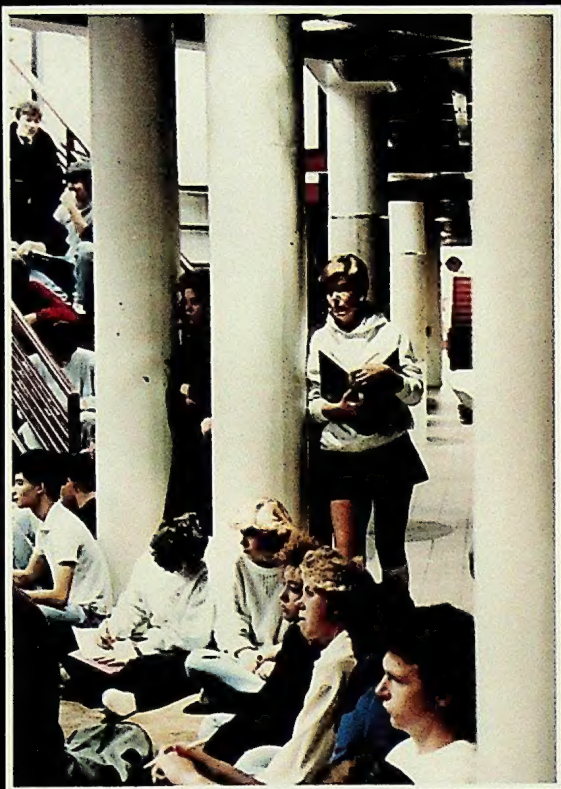

J. PERCY PAGE C.H.S.
EDMONTON, ALBERTA
VOLUME III

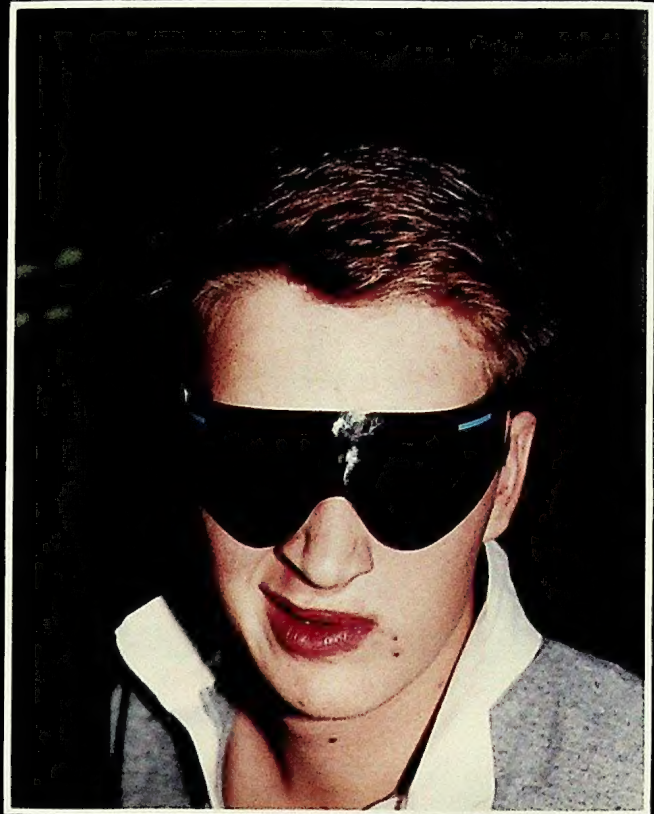

SEPTEMBER ALREADY?

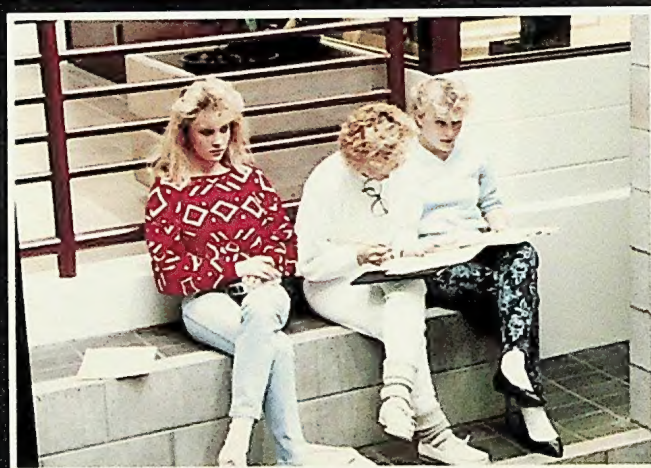

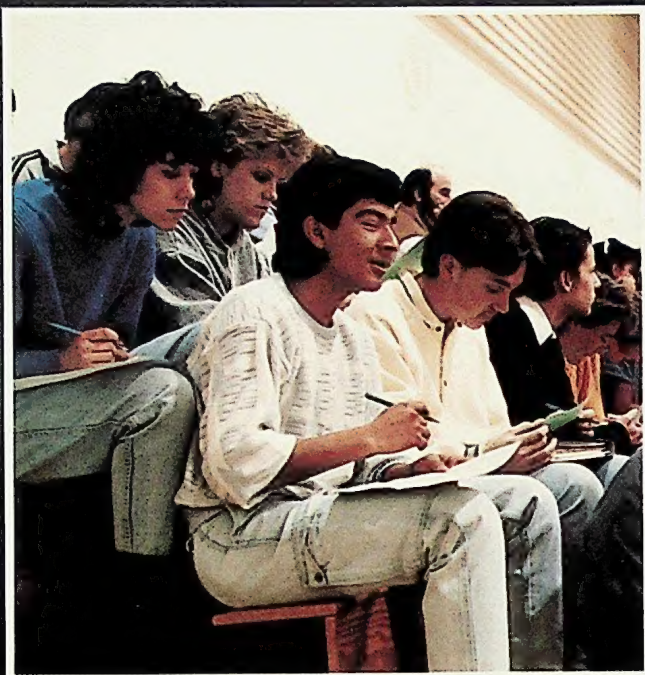

It seemed like summer had just begun, when it was time to return for another year of learning at J. Percy Page. Although many groans and moan were heard, there was definitely an air of excitement. After all, it was terrific to see old friends, meet new acquaintances, and once again get involved in school activities.

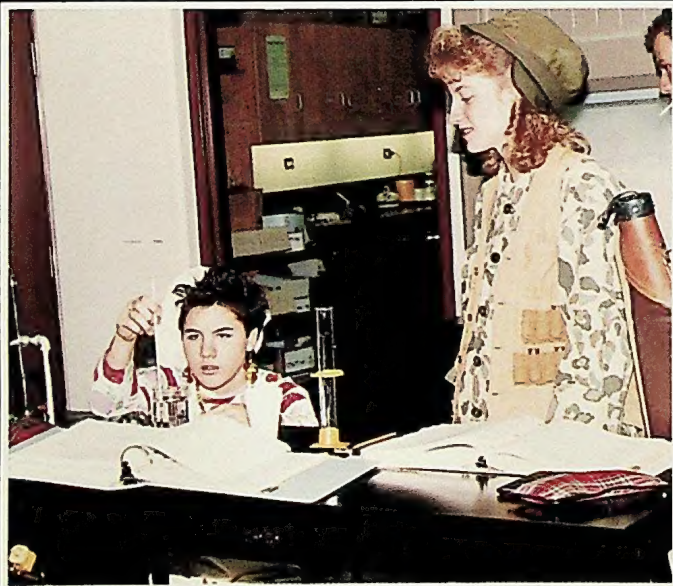

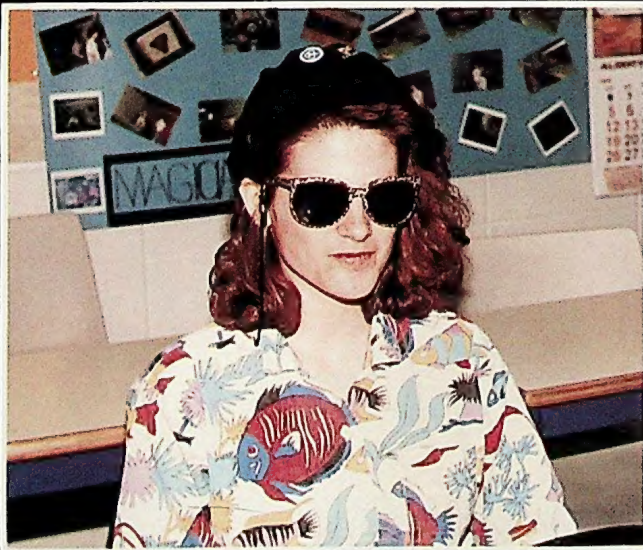

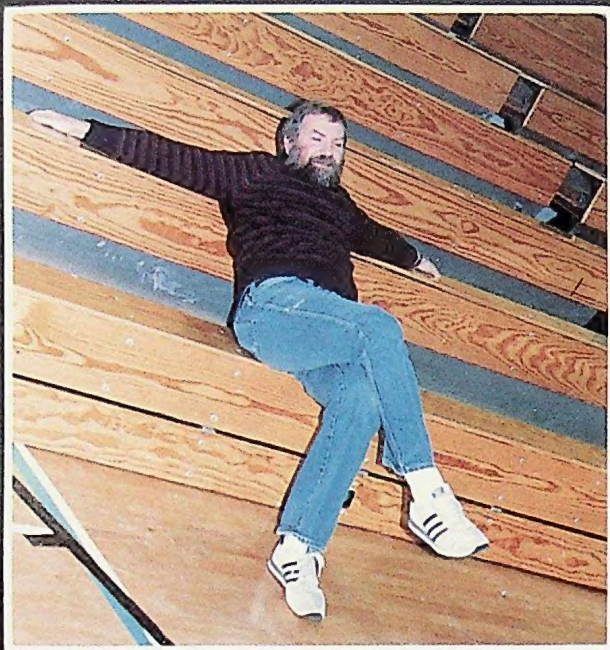

WHY BE NORMAL?

This year at Halloween people certainly weren't normal. After all how could you be with Page's first school-wide pumpkin carving contest and with the first haunted house put on by the Page Players. Scaaary!! This Halloween people dressed zany for the costume contest. A tough job for judges. With activities such as these, Page proved that you're never too old for tricks and treats.

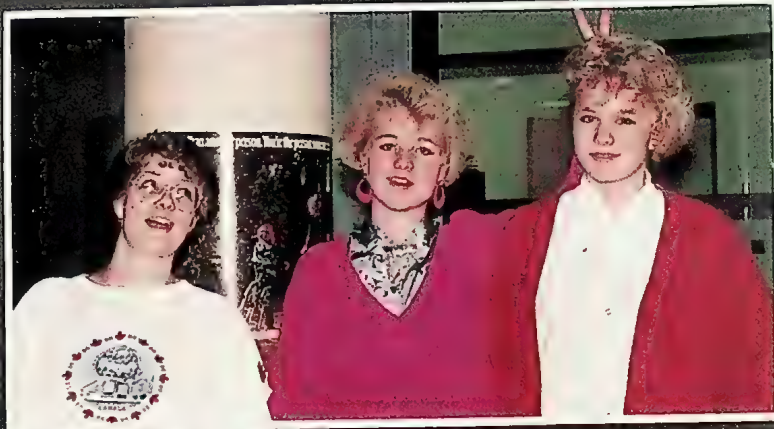

Page's first Christmas lit was a smashing success. There were contributions made by the Page Players, the Cheerleaders and Christians in Action among many others. Because of the positive response, we can expect more in the future.

PRINCIPAL'S MESSAGE

This is J. Percy Page High School's third year. Page is in many ways like that of an adolescent struggling to grow up. This reference refers to all of us - the students, the parents, the teachers, the support staff, the House Masters and yes, even myself. As we, the school, grow and mature together we go through different phases. During the first phase everything is new and untried. The next phase is that of self-examination. We evaluate what we are doing, continuing with some things while rejecting others. This year we are in the process of evaluating the characteristics which make us an effective school. We find that in three years we have developed:

- a positive school climate in which there is a shared attitude that school is a nice place to be
- high expectations through school policies and instructional practices
- goals which lead to success, satisfaction and community participation

As we review our achievements there are some other positive findings. I believe that the most exciting of these is the close working relationship among the Student Council, the staff and the Parent Advisory Committee.

On the extra-curricular scene we have excelled in all areas of sports. My congratulations to the team members, the coaches, helpers and supporters.

At the close of the year many of you will begin preparing for the next stage of your life. I hope that Page has given you a love of learning that will continue. I wish all of you who are leaving Page continued success and much happiness.

John Pankhurst
Principal

STUDENT GOVERNMENT

Page is an unusual school. It has unusual people in it, and definitely some pretty unusual teachers. So it seems fitting that the school would have an unusual student council. Although for a good part of the year many of you were not aware that we existed, we accomplished a lot. Many hours were spent compiling some highly informative data. For example, it was found that we held approximately 72 meetings. This means we spent about 276480 seconds in the meeting room. We painted about 56 posters over the year. This had an average life span of two to three class hours before moustaches were drawn on them, or the tape mysteriously unstuck itself.

However, the most important data we collected concerns school spirit. According to the latest figures, this has experienced an increase of 98% over the past year, a greater improvement than any other school. Page is making progress. Perhaps this is partly due to the fact that, according to the research we've done, Page students have a 117% better attitude than those of the next highest ranking high school. Pretty impressive.

To the grade ten and eleven: hang in there, and keep those teachers in line next year. To the first TRUE Grad Class: Congratulations, thanks for the memories, and your Student Council wishes you success and happiness as you go your ways.

CITY CONFERENCE FINALISTS - SILVER MEDAL WINNERS - The 1986-87 Season was a very successful one for the Junior Girls Basketball Team. The Girls (all Grade 10's) played very well and improved as the season went on.

In the City Conference Regular Season, they tied for third with St. Francis Xavier but were second in scoring. In the Playoffs, Page demolished St. Joe's 60-28 in a game that was scoreless after 8 minutes. In the Quarterfinals, Page was pitted against the Regular Season Champions, Louis St. Laurent, and for the third time that season beat LSL 52-51 in a very tense, exciting game. This win put the Junior Girls in the City Conference Finals for the second time in three years, against Eastglen. After a very hard fought game, Eastglen managed to get by Page 55-52.

The Juniors won the Silver Medal and have vowed to have to have an even better year in 1987-88. Thanks to all the fans for their support.

EDITOR'S MESSAGE:

This book is a reflection of another year at Page. What makes it so remarkable compared to others are those events, memories and faces recorded within. The yearbook can become a vehicle to the past. A past which enables to recognize many faces and remember our phases development. This college bases its success on those students who were heavily involved in its production. To produce a yearbook, it requires commitment and dedication that goes far beyond school hours. A commitment that sacrificed spares, weekends, after school hours till 7 or 8 p.m. A commitment to a job that is not always fun, but rather hard work. A job where there are no trophies only the recognition given here on this page. The crew on which so dependently consisted of Krupa Joshi, Nashilla Hirji, Rashmi Sharma, Colleen Tull, Jeff Hilbrecht. I would like to thank the two people who with their support and guidance allowed us to overcome many obstacles. Mrs. Panylyk who was the best advisor a yearbook could ask for. And Mr. Gainer, who along with our photographer, Jay Thompson, has provided us with the photos in the book. Mr. Gainer was absolutely invaluable to the production of our book. May I also extend appreciation to the staff and students of Page who have never let a dull picture pass our hands. Also to our families and friends for their understanding and patience.

Cascade House

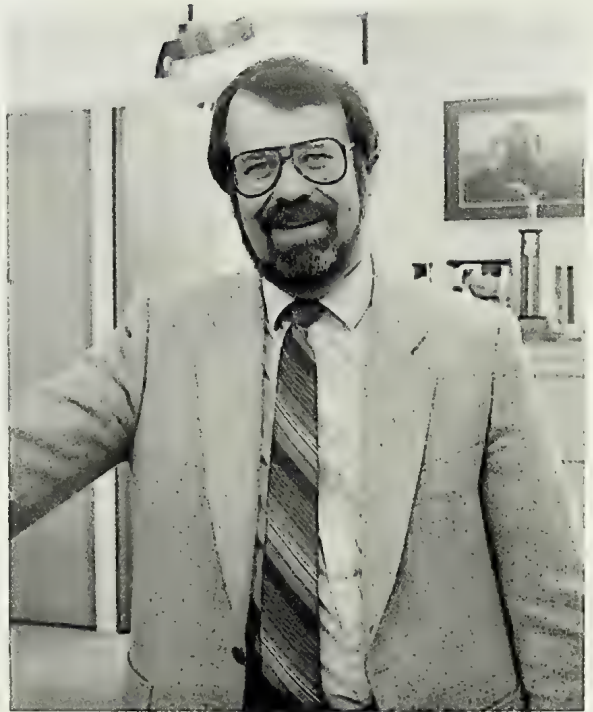

Time passes so quickly it is difficult to believe that J. Percy Page Composite High School has completed its third year of operation. From my perspective, every day has been filled to capacity with activities involving classes, Student Advisor undertakings, social activities, team sports, competitions and community contacts. Periodically, I take some time to just sit and quietly reflect on the reasons I enjoy being part of "Page". The basic premise that I always arrive at centers around "people". The Cascade students that I have been associated with in various capacities are, as a group, very considerate, caring, humourous, and above all, endowed with a wonderful sense of the uniqueness of their world. The staff in Cascade have also made working in the capacity of House Master a satisfying experience. They have shown professionalism and dedication in meeting the needs of students. Their willingness to go the "extra mile" when required has been greatly appreciated. Parents, too, have shown themselves to be understanding, concerned participants in making this a great House and School.

Thank you for a memorable 1986-1987.

Sunwapta House

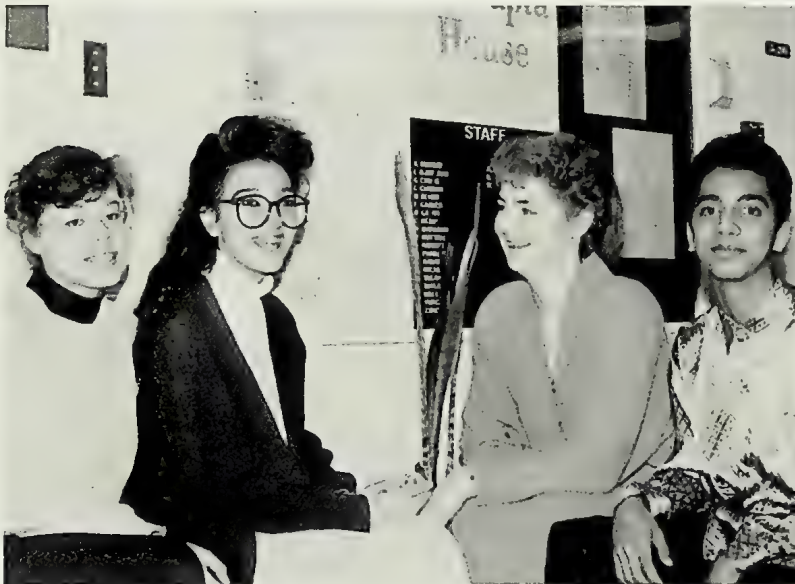

Since the opening of our school in 1984, Sunwapta has continued to mature, establishing for itself a pride in achieving excellence, and a pleasure in cementing friendships. Our house is founded on spirit of cooperation. Active in promoting this spirit is the house council, whose organization and planning of activities continues to mold the positive reputation of Sunwapta. Over the last year all of us have been confronted with many challenges, challenges which have been met through the cooperation of students, parents, and staff. From these challenges, we have grown.

To the grade twelve graduates, who are leaving our "family", you will be missed. Over the past three years we have become good friends. However, your absences are made easier in the realization that you are embarking on careers which will enrich your lives, and, in turn, enrich our society. I am extremely proud of our Sunwapta graduates, and I wish you success, happiness, and good health in the future. I hope the memories of Sunwapta House are as pleasant and gratifying as those that I will cherish.

To those of you returning, both staff and students, have an enjoyable, relaxing and rewarding summer. Come back in September eager and anxious to welcome the new students to our house and to our school.

WAPITI HOUSE

Wapiti House

Another year, another Housemaster. Again this year Wapiti has experienced many changes. It has grown to well over 300 students (almost the total population of the school in Year One). The pride and traditions established in the first two years were maintained. We tried some new things, some successful, some not so successful, but we tried. Your House Council has worked long and hard to provide you with memories of your high school days. Remember; Battle of the Sexes, Baby Pictures, Joker's Jamboree?

As well as these activities I note with pleasure the hard work and determination displayed of many of our students in the academic areas. It is encouraging to see so many students striving to Achieve Scholastic Excellence, doing and being the best that you can.

I would like to thank all of the staff and students for making my first year at Page, one that was exciting, challenging and rewarding.

To those students who are graduating - the best to all of you! Go after what you want. Remember as Rick Hansen said: "Whether you fall short is not the difference between winning and losing. Failure is not trying. A winner in life is someone who gives it all they can and comes away sure of knowing that's the best they can be".

To those students returning to J. Percy Page, have a great summer. In the Fall be ready to welcome the new students into Wapiti House and make 1987/88 the best year of your life.

OUR TOWN

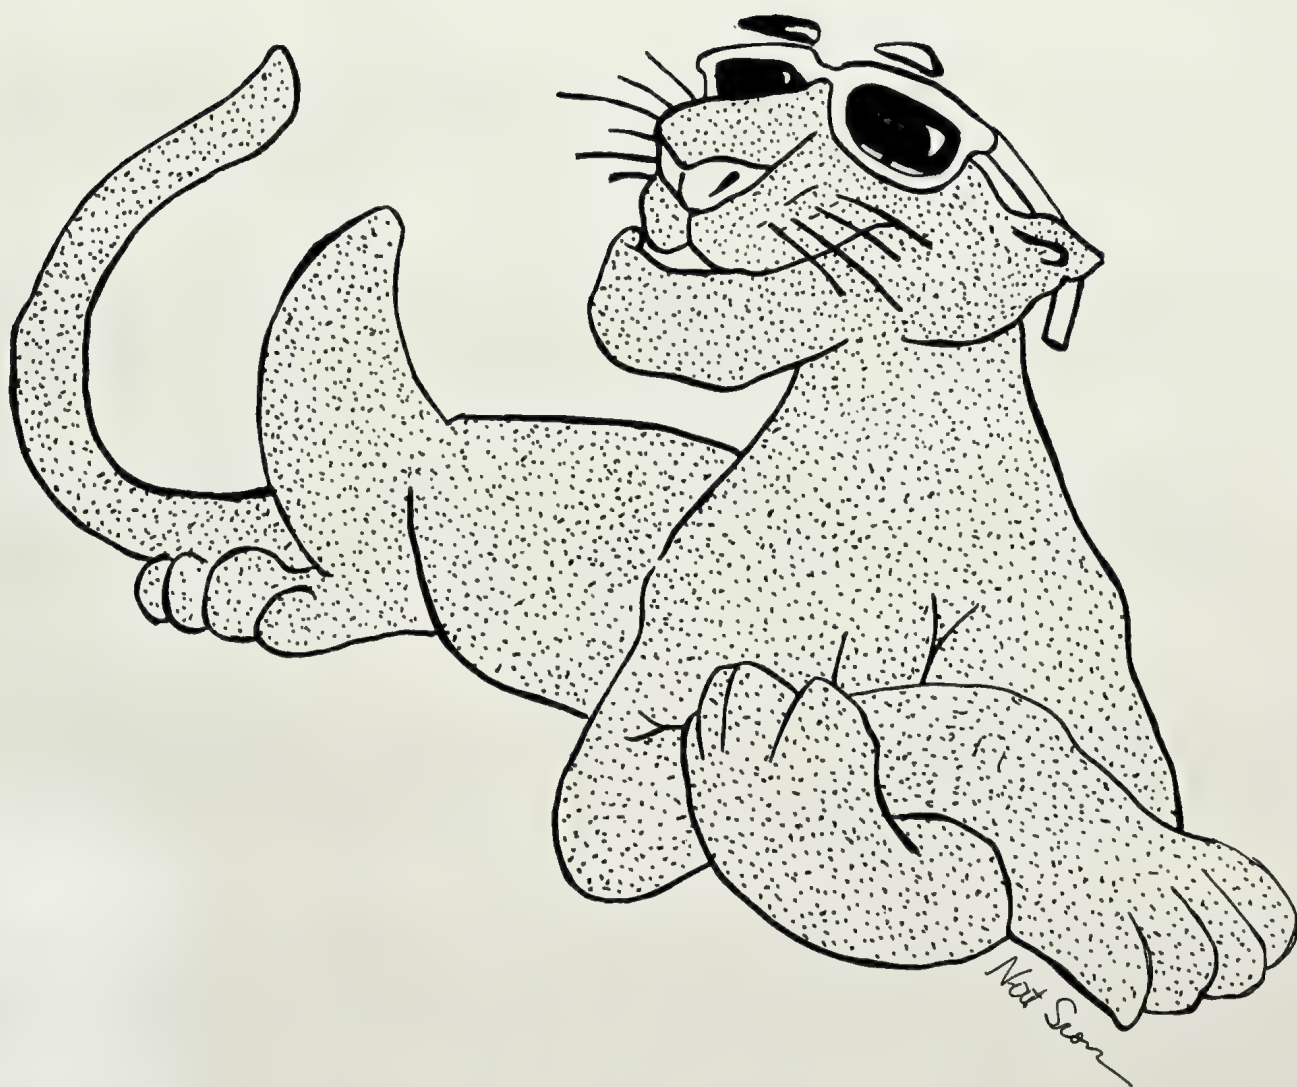

OUR TOWN

On April 29, 30 and May 1 the play, Our Town, was presented in the drama room of J. Percy Page. The students took many hours working on it, and thanks to the directing of Mrs. Berry, it was a great success. The play showed the lives of Emily Webb (Lisa Morris) and George Gibbs (Bill Wells), as they grew up as friends and eventually got married. Also congratulations to Tara Anderson for memorizing all those lines, and bringing the Stage Manager to life.

Everyone put in long hard hours, but we all agree it was worth the effort!!!

VALEDICTORIAN

Today, we face the end of a long journey and the beginning of a new horizon. Along with having successfully completed high school and thus receiving our diplomas, the key to our future, we are also setting a precedent as the first graduating class to have attended three full years at J. Percy Page.

As we look back on the obstacles we have encountered, we must feel a sense of pride for having overcome them. We can now look forward to the future, full of opportunities, none of which could be possible without this valuable education. Each student here can be proud to have survived these three, often gruelling, years of school. We have all gone through extensive growth intellectually and emotionally.

As we entered school we found the basic principles of reading, writing and mathematics difficult. The important thing is that we mastered and overcame these obstacles and now find ourselves understanding, or attempting to understand, the complexities of algebra, Shakespeare and economics. We must at this point recognize that much of this intellectual growth could not have occurred without the immense devotion, deter-

mination and patience of our many teachers.

Emotionally, we have experienced extensive growth. When we first entered school, we had to learn to interact with others. Friendships were formed from the first day and were to continue throughout the rest of our school years. As we grew, we changed from self conscious and insecure young teens into young adults establishing our individuality and self-respect. Now we have nearly reached a mature level of social skill but we still have our entire lives to continue this development. Once again we have completed a steep uphill climb and now are ready to face a new horizon.

As an integral component of our emotional growth, parents and friends have provided a strong foundation on which to build. In our youth, parents provided the examples and guidance we needed to help shape our personalities. As we developed our individuality, parents began to seem bothersome at times, but they stuck with us and tolerated us when we tested their authority. As we entered high school, we began to mature and to realize the invaluable support and love that our parents provide.

Whether it was the money for the "big date", the coffee for the all night cramming session, or the emotional stability in times of sorrow, they were always there. Those we love as parents, we come to respect and depend on as friends.

This past year it seemed as though friendships became very strong and important. This is especially apparent at J. Percy Page with our small population. We, as maturing young adults, are beginning to realize how precious and priceless a friendship truly is. Many of us have attended school together for several years, but it is only now that we realize how close we have become. In a period in our lives when we are attempting to discover our own identities, we rely on friends for stability and support through the good and bad times. As we face the reality of leaving some of our closest friends, we must remember that "friends are friends forever". And remember as we face the world, our true friends will never leave us.

It seems as though we've just said hello when we have to say goodbye. This voyage of intellectual and emotional growth has now come to an end. It seems so sad to depart from those we have matured with and have grown to respect and love. Although this goodbye is a sad one, with tears for leaving the past, we must face our future; our new horizon, without looking back. An unknown poet once wrote these lines:

"But always remember the hills ahead

are never as steep as they seem,
and with faith in your heart
start upward and climb
'til you reach your dream."

Be brave in your pursuit of happiness and utilize the invaluable experience gained both intellectually and emotionally. "Turn your head and don't look back. Set your sails for a new horizon."

To Experience Is To Be A Success Is To Never Stop The final year wasn't easy. But it taught about limits both personal and worldly. I know myself now - I'm a changer. Stability lies in love and friendship - I owe all of it to JQ, JB and undoubtedly, lovingly and irreversibly BH. Thanks for the encounter, Page, I'll miss the hassle.

Have a great life, guys!!

JORGE BERISTAIN: Some advice to the young ones out there - All you need to get through H.S. is an I.Q. and a G.Q., some D.O. for your B.O., and no need to bust your B's unless you're going for a Ph D., B. Com., or a M.D. To JQ and AB - stay loose. P.S. - don't find yourself in H.S., let somebody else find you.

CLASS HISTORIANS

So, we finally did it! We've finished school - an end and a new beginning. We can truthfully say now that, "High school has been the best 3, 4, or for some of you, 5 years of our lives!" We've slaved through endless hours of homework, gone through about all of the Monday mornings we can take and read just about as many "Tasks For Today" by Mr. Norby we can stomach.

When we think of our years of high school, we can truly say with confidence that each year had it's own unique characteristics. Just think back to 1984. We just came off a long run as King and Queens in our respective jr. high schools. We crept around the halls of J. Percy Page constantly on the lookout for the grade 11's and when we thought we had them licked, we'd turn a corner and sure enough, there would be a raging lion, ready to attack its prey with a can of "Gillette Extra Foamy". We clutched our maps and our timetables in our trembling little hands as if they held the fate of our lives. When the halls were clear, we would tear down them racing from house to house in search of our next class. "Aha, we finally made it!" We'd close the door behind us, sweat beading on our forehead, take a deep breath, turn around startled by a roar and find 30 savage grade 11's snarling and growling at you. You'd fumble for the doorknob in a nervous frenzy and hear above the hissing and laughter, the teacher say with the greatest concern "Are you lost?" All confidence gone now, we'd sprint out of the room as fast as our shakey little legs would go. Ah, those were the days! On some days when you felt really brave, you would try to claim a seat in the

galleria, but the instant you sat down, all eyes would be focused on you with accusations written all over them proclaiming, "HEY! HEY YOU! YOU, . . . YOU DON'T BELONG!" We would go away totally demoralized and find the only place in the school with enough security to comfort you at this time. The washrooms. Even sub-humans need a place to lick their wounds, and release frustrations. We then discovered the cafeteria another great place to release frustrations. After all, what's a better thing to do than to throw that stuff, Catherine calls food, around. You weren't planning on eating it? What a blast! And that's exactly what you got when Mr. Macaughn came in and said, "All right then, let's have a really great time and clean this mess up right away!" We saw the junior Girls Basketball Team win the city championships and also were privileged to see a true revolutionary organize the student body into a big sit-in to protest the cancellation of the school dance. It was sad to see Mrs. Foster leave last year. Then just as we began to know our way around, it ended. Grade ten was over.

Grade eleven came along which brought many of the luxuries we only dreamed of in grade 10, like reserved seating in the galleria. It brought about Micheal J. Fox's debut in "Back To The Future" and "Pee-Wee Herman's Big Adventure." "Jams" were in and we knew our way around. We were starting to see school in a totally new and different light. Classes, homework, and going late to class (I mean tardy!). It was the first year we had a Senior Boys Volleyball Team and it was great to see them win the city championships. With

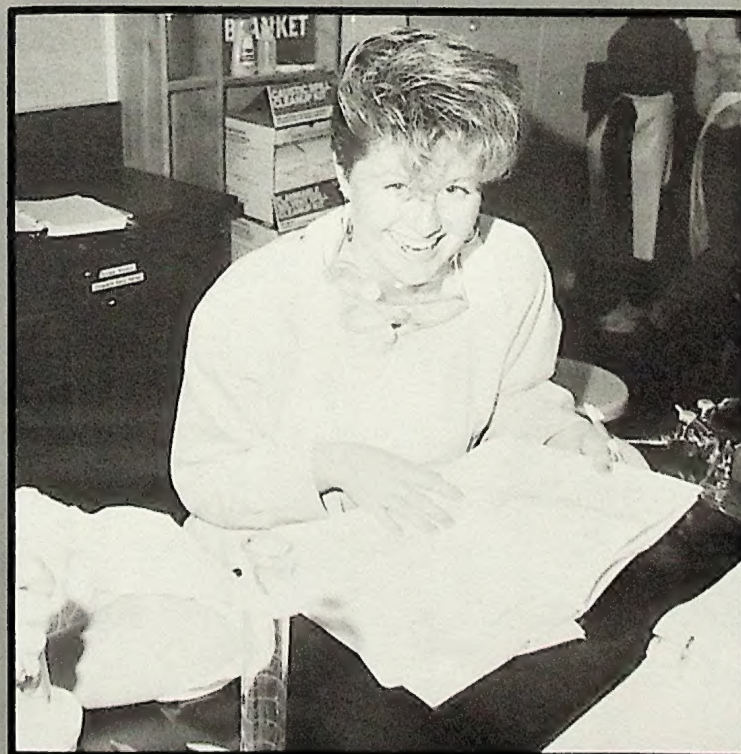

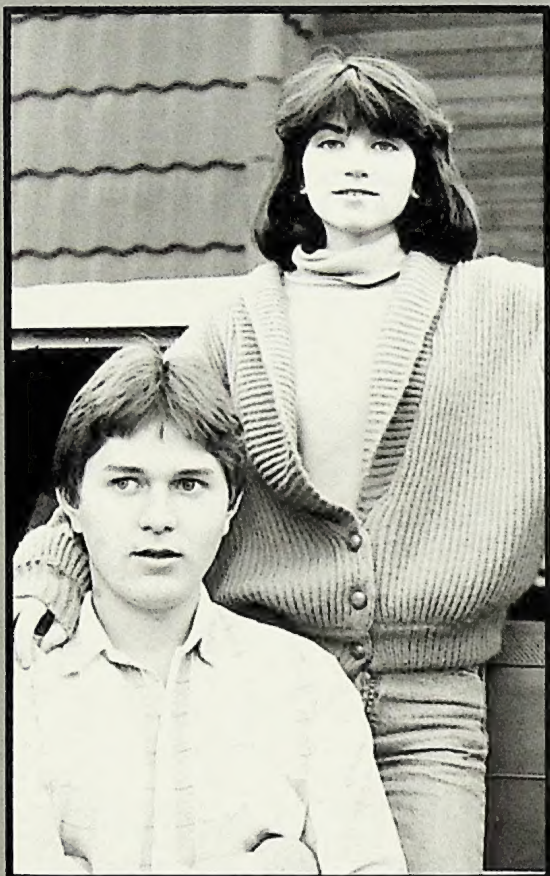

this newly acquired social awareness, we also began to notice the many arts Percy Page has to offer. Drama, music, beauty culture, Auto mechanics, and athletics. But Grade 11 passed by very quickly and the summer of 1986 came.

We were in grade 12, imagine, Seniors! It's strange that we had never realized how sophisticated we really were. We were beyond primitive phrases such as "gag me" and "man, are you ugly." Rather it was, "I will beat thee into the handsomeness, thou galled prune." or we'd question ourselves in math class, "Is there a method in this madness?" We also noticed the little people scurrying around the halls clutching their maps. Speaking of Math, remember the problems in math? Questions changed from "8 x 8 "To" What is the derivative of 9 divided by 2x to the fourth - 6x cubed y plus 3.42xy squared", and the comments on our exams: "This exam is a good indication of your learning abilities." But we were grade 12's, the graduating class, so we could retort: "This mark is a good indication of your teaching abilities!" Then there was the unresolved question, "Can anyone pass Mrs. Curran's social 30 class?!" Then there was the ultimate challenge. Could anyone sneak a slush by Mrs. Conquest in the library without getting caught. Actually, teachers are very important and respected people. They are well liked, admirable and serve as role models for students. Years from now, many things will remind us of our teachers. For example, whenever I see Less Nessman on WKRP in Cincinnati I'll think of Mr. Pysyk, or when I see re-runs of Mr. Rogers, I know I'll think of Mr. Loehde and physics 30. But we had good times too, out of class. Who could ever forget TVT? With Tony Gordon singing "Walk This Way" and the little ALTERCATION in the stands, it proved to be one of the all-time great nights for excitement. Grad fund-raising activities also turned out to be a lot of fun. We really learned the meaning of wet. Right Mr. Taylor? and also had the opportunity of exercising self-control when Bonnie went crazy with the hose. The events leading up to Rick Hansen's arrival were extra special, knowing that all our efforts and contributions were going to a truly worthy cause. When Rick rolled into the gym, emotions were soaring and I know none of us will ever forget that incredible day.

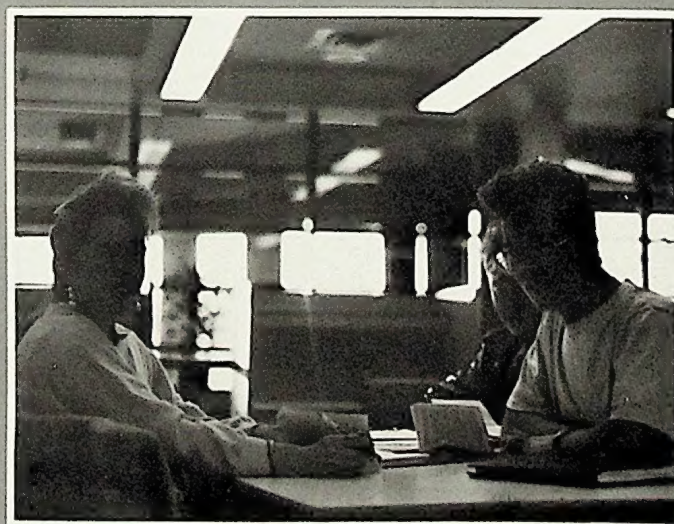

And suddenly it's nearly over. Grade 12 is coming to an end, and we're ready for a new beginning. But our beginning rests upon the past and present. On our teachers, our friends, and our parents, especially when they listened to us, supported us, and encouraged us in the toughest of times. So mom and dad, thank you for being there!

We must also never forget the friends we've made and the friends we've lost. Life is empty without friends. So as we go our different ways, let's keep in touch and never forget the good times and the memories.

Now as the class of '87 comes to a close, it is time for us to pursue our dreams and remember -- "REACH FOR NEW HORIZONS".
